

THE BUCKNER GROUP

VR

VIRTUAL REALITY FOCUS GROUP

The Buckner Group and its newly formed subsidiary, VR Productions invite you to a Focus Group on Virtual Reality and its application for training, OH&S and other educational uses.

WHY SHOULD YOU ATTEND?

Innovation in learning is alive and well! Digital tools are becoming an everyday reality in the workplace, and Occupational, Health and Safety training is no exception. The use of immersive digital environments to simulate on-site situations is the next frontier and we are excited to present an innovative concept for future OH&S training.

WHAT TO EXPECT

The Focus Group will provide an opportunity for you to find out about Virtual Reality. However, we would also like your opinion on the product that we present, the pricing model and the applications that it may have for your industry. More background information will be sent once you have confirmed your attendance.
